

LADY NIGHT PAD 6

Attends Lady Night Pad 6 is an anatomically shaped pad for overnight use which is wider in the back for extra protection during the night. It is designed to manage moderate to heavy urinary incontinence.

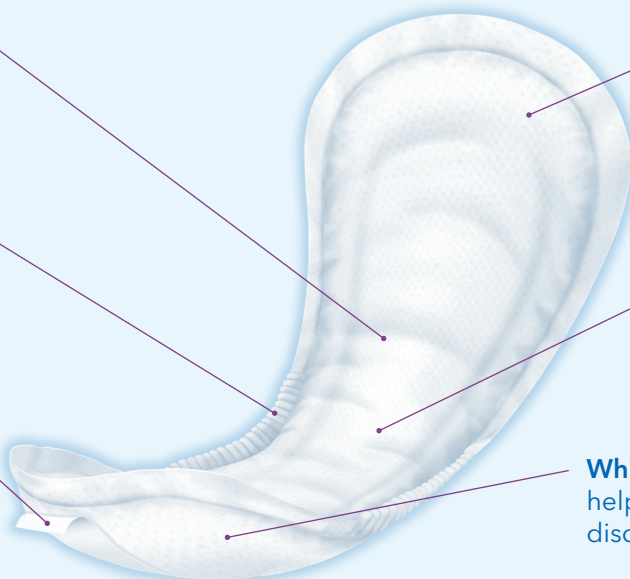

Available Absorption Levels:

Anatomically shaped core provides the user with a close comfortable fit to the body and reduces the risk of leakage.

Soft foam elastics provide a natural cup shape for improved fit and reduce the risk of leakage.

Fixation tape allows the pad to be worn with the users own close fitting underwear for extra discretion.

Super soft top sheet for improved softness and comfort.

Dual core with acquisition layer helps to reduce the risk of leakage and keeps the skin dry.

White breathable back sheet helps maintain comfort, discretion and skin health.

Quick-Dry
for rapid absorption and dryness

Active Zone
where most absorption is needed

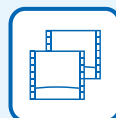

Odour Protection
helps keep you safe from unpleasant smells

Super Soft Top Sheet
feels gentle on skin

100% Breathable
for all-round Air Comfort

Single wrap
for increased hygiene and discretion
