

Attends - The system with 10 absorption levels for bladder weakness

Attends Contours Regular 6 - 10 are a range of anatomically shaped pads designed to manage heavy urinary and/or faecal incontinence.

- 1** White waterproof back sheet to aid containment.
- 2** Wetness indicator aids good nursing practice and acts as a guide to when the pad requires changing.
- 3** Full barrier leg cuff reduces the risk of leakage.
- 4** Anatomically shaped core for a close comfortable fit.
- 5** Super absorbent core with acquisition layer for improved leakage protection, skin dryness and odour protection.
- 6** The product absorbency level is printed on the back sheet for easy identification of products in care homes/wards.

Quick-Dry

The Quick-Dry technology is included in the acquisition patch directly below the top sheet in the centre of the pad. It quickly absorbs urine away from the skin and into the pad and prevents the urine returning to the surface. It can handle several gushes of urine without affecting how the pad works which results in exceptional skin dryness and leakage protection for the user.

pH Value

The core technology in the product helps to guarantee a low pH which is similar to the skin. This helps to protect the skin and ensures improved skin health.

Natural Odour Protection

Natural Odour Protection reduces the risk of unpleasant smells.
